| Total full-time equivalents | 225 | 233 | 224 | 252 |

The key figures for 2013 have been adjusted since interest-bearing balance sheet items include earned/accrued interest.

Comments on the Interim Accounts 2014/Interim Report - Sparebanken Øst

- Stable net interest measured in NOK
- Very good return on equity
- Sound equity position
- Strong growth in lending to private customers
- Proposed dividend in line with dividend policy

INCOME STATEMENT

The Group achieved NOK 533.1 million in profit before tax in 2014, compared with NOK 388.9 million in 2013. The result was affected by a gain of NOK 134.7 million on the sale of shares in Nets Holding AS, which was recognised in the ordinary profit for 2014. The equivalent change in value that had accumulated in comprehensive income was reversed. The improvement in result was also due to an increase in interest and credit commission income, and a gain on the sale of shares in Frende Holding AS.

Profit before tax as a ratio of average total assets was 1.59 per cent, compared with 1.29 per cent in 2013.

Profit after tax was NOK 428.7 million, compared with NOK 282.7 million in 2013. Tax expenses were low as a result of the non-tax-liable gain on the sale of shares.

The return on equity after tax for 2014 was 16.72 per cent, compared with 12.46 per cent in 2013.

The result after tax of the parent bank is a profit of NOK 360.6 million in 2014, compared to NOK 223.5 million in 2013. In Q1 2014, the parent bank received dividend from subsidiaries amounting to NOK 60.0 million. This divided is eliminated in the Group's result. Group contributions from subsidiaries of NOK 71.0 million, net after tax, were recognised by the parent bank in Q1 2013.

Net interest income

Net interest and credit commission income amounted to NOK 606.9 million, showing an increase by NOK 42.4 million compared with 2013. In monetary terms, net interest and credit commission income has remained stable at around NOK 150.0 million per quarter over the last six quarters. Net interest as a percentage of the average total assets was at the same level in Q4 as in Q3. In NOK terms, the net interest increased somewhat in Q4 as a consequence of an increase in the lending volume.

Net interest and credit commission income corresponds to 1.81 percent of the average total assets for 2014. For comparison, net interest and credit commission income amounted to 1.87 per cent in 2013.

Deposit guarantee scheme fees totalling NOK 10.4 million were charged in 2014, compared to NOK 9.0 million in 2013.

Operating income

Dividend received from equity instruments amounts to NOK 7.3 million and mainly relates to dividend from Nets Holding AS. Dividend received from equity instruments is NOK 5.7 million lower than for the previous year. The decline is mainly due to dividend from Nordito Property AS in 2013.

Commission income and income from banking services amount to NOK 81.6 million, which is an increase by NOK 1.2 million compared with the previous year. Commission income is derived from traditional banking services.

Commission expenses and costs of banking services amount to NOK 43.7 million, having increased by NOK 3.1 million from 2013. This increase is mainly attributable to agency commission.

Net value changes and gains/losses on financial assets provided recognised income of

NOK 160.2 million in 2014. The book profit on the sale of the bank's holding in Nets Holding AS amounts to NOK 134.7 million and is recognised in the ordinary profit, while the gain on the sale of shares in Frende Holding AS is NOK 11.7 million. Recognised net income relating to the guarantee to Eksportfinans ASA was NOK 10.2 million. For comparison, the income recognised on net value changes and gains/losses on financial assets in 2013 totalled NOK 26.4 million. Of this amount, NOK 6.3 million related to the Eksportfinans ASA quarantee.

Other operating income amounts to NOK 40.5 million, which is a decrease by NOK 14.7 million compared to 2013. The decline is related mainly to gains on the sale of real estate in Sparebanken Øst Eiendom AS in 2013.

Operating expenses

Total operating expenses amounted to NOK 296.1 million, which corresponds to 0.88 per cent of the average total assets. For comparison, total operating expenses amounted to NOK 293.8 million in 2013, equivalent to 0.97 per cent of the average total assets.

Payroll and general administrative costs amounted to NOK 217.5 million in 2014, compared with NOK 220.9 million in 2013. The number of active FTEs in the Group at the end of Q4 2014 was 225, compared to 233 at the end of 2013. The number of active FTEs in the parent bank at the end of Q4 2014 was 195, compared to 202 at the end of 2013.

Depreciation amounted to NOK 19.8 million in 2014, compared with NOK 17.9 million in 2013. The increase is related mainly to a new portfolio of IT systems in the bank.

Other operating expenses amounted to NOK 58.8 million in 2014, compared with NOK 55.0 million in 2013. In Q4 2014, NOK 4.0 million was allocated for premises no longer used by the bank in its activities.

Losses on loans and guarantees

The Group's recognised losses on loans and guarantees amounted to NOK 23.6 million in 2014, compared with NOK 16.2 million in 2013. The parent bank's figures for the previous year were affected by reversals of previous losses.

Individual write-downs on loans and guarantees to customers amounted to NOK 93.8 million at the end of 2014, compared to NOK 97.0 million at the end of 2013.

Write-downs on groups of loans to customers amounted to NOK 43.4 million at the end of 2014, and were unchanged from the beginning of the year.

Gross defaults and non-performing loans amounted to NOK 423.8 million at the end of Q4 2014, compared with NOK 500.2 million at the end of Q4 2013. Net defaults and non-performing loans amounted to NOK 329.5 million, which shows a decrease by NOK 72.7 million compared with the end of 2013.

Allocation of the profit for the year

The Board proposes that the profit for the year of the parent bank be allocated as shown below: Proposed dividend is NOK 5.00 per equity certificate

| (Figures in NOK million) | 2014 |
|--------------------------------|-------|
| Equity certificate dividend | 103.7 |
| Transferred to equalisation | 45.8 |
| fund | |
| Transferred to primary capital | 196.1 |
| Endowments | 15.0 |
| Profit for the year | 360.6 |

The Equalisation Fund (excluding dividends) currently amounts to NOK 262.6 million, which is equivalent to NOK 12.67 per equity certificate.

BALANCE SHEET

Total assets have increased by NOK 3,847.6 million since the beginning of the year and amounted to NOK 35,006.1 million at the end of 2014.

Cash and balances with central banks have increased by NOK 124.0 million since the beginning of the year, and amounted to NOK 481.5 million at the end of 2014.

Net lending to credit institutions has declined by NOK 1.1 million since the beginning of the year, and amounted to NOK 7.5 million at the end of 2014.

Net loans to customers amounted to NOK 28,697.8 million, which represents an increase by NOK 2,926,2 million during the last 12

months, equivalent to 11.4 per cent. Net lending to private customers increased by 14.9 per cent, while net lending to business customers declined by 6.3 per cent.

Gross loans to private customers accounted for 85.6 per cent of all loans to customers.

Holdings of certificates and bonds have increased by NOK 589.5 million since the beginning of the year and amounted to NOK 4,109.8 million at the end of 2014. These holdings consist exclusively of the liquidity portfolio and amount to NOK 4,049.1 million in nominal terms.

The bank's shares in Frende Holding AS and Eksportfinans ASA are classified as "available for sale".

The valuation of the shares in Frende Holding AS is based on the price at the last transaction and was NOK 200.8 million at the end of Q4 2014. An equivalent valuation per share was the basis as at 31.12.13.

The holding of shares in Eksportfinans ASA is recognised in the balance sheet at NOK 208.3 million. As at the end of Q4 2014 there were no circumstances indicating any changes in the valuation of these shares.

Deposits from customers amounted to NOK 13,197.0 million as at 31.12.14, having increased by NOK 850.2 million over the past 12 months, equivalent to 6.8 per cent. At the end of 2014 the deposit-to-loan ratio was 46.68 per cent and lies at the same level as at the end of 2013.

The loan-to-value ratio (LTV) in the parent bank at the end of 2014 was 70.68 per cent, compared with 73.90 per cent at the end of 2013.

Liabilities arising from the issuance of securities amounted to NOK 17,549.9 million, which is an increase by NOK 3,393.7 million since the beginning of the year.

Other long-term loan agreements amounted to NOK 210.5 million at the end of 2014, showing a reduction by NOK 565.1 million since the beginning of the year.

Short-term funding (defined as funding with a remaining maturity of less than 1 year) was NOK 2,555.5 million as at 31.12.14.

RISKS

Credit risk

Sparebanken Øst has drawn up a credit risk strategy that concerns various types of credit risk relating to lending, credits and guarantees granted to customers in the private and business markets, as well as the counterparty risk on securities.

The credit strategy is intended to help to ensure that the bank's credit-granting activities are in line with the regulatory frameworks and guidelines that derive from the bank's overall business concept and strategic plans, including that the activities are responsible with regard to the bank's ability and willingness to undertake risk.

The strategy will furthermore contribute to ensuring that the bank's established credit portfolio is of a quality and structure that can ensure the bank's profitability in the short and long term, and that the bank's credit risk is handled in accordance with statutory and regulatory requirements, circulars from the authorities and other regulatory provisions.

The principles in the strategy document are included in the bank's credit manuals, as well as the bank's established instructions.

Within the private and business markets, the ability and willingness to pay are key aspects of credit assessment. The risk associated with lending to customers is measured by means of a customer risk classification. The risk classification is established as an integral element of the credit process.

The development in credit risk is monitored on an ongoing basis via quarterly reports to the Management and the Board of Directors.

The bank's geographical catchment area offers both the private and business departments a large market area and flexibility in terms of customers and markets.

Geographically, the bank's lending portfolio to private and business customers is primarily spread across the central southeastern area of Norway.

A small ratio of lending to business customers contributes to a generally low concentration risk for the bank. The exposure to commercial properties represents a relatively large proportion of the business portfolio, but a small proportion of the bank's total lending portfolio.

As a general rule, loans and credit are only granted to private customers against adequate

security. The bank has low exposure to loans/credits without related security.

The bank also takes a credit risk in its management of liquidity reserves and surplus liquidity. The bank intends to hold low-creditrisk interest-bearing securities for liquidity purposes (reserves for disposal as required), or as the basis for deposits to raise loans from the central bank, or for both purposes.

The bank's credit risk is monitored continuously and there are updated overviews of the bank's overall counterparty risk.

Market risk

Sparebanken Øst pursues a financial strategy that will help to ensure that the bank's activities in the financial area are in line with the framework conditions and guidelines that are a consequence of the bank's overall business concept, strategic plans and budgets, and that the activities are responsible in relation to the bank's ability and willingness to undertake risks.

The financial strategy must also help to ensure that the bank manages financial risk in line with the requirements laid down in statutory and regulatory requirements, circulars from the authorities and other regulatory provisions. Sparebanken Øst has a liquidity portfolio consisting of interest-bearing securities that are mainly issued by Nordic credit institutions, Norwegian banks, municipalities, the state and state-guaranteed entities. On this basis, the bank takes a credit spread risk. Interest rate risk is held within fixed limits, and is limited so that the majority of assets and liabilities have variable interest rates or have been swapped to variable interest rate terms. Currency risk is reduced by entering into forward contracts or basis swaps. The bank is exposed to very little risk on interest rates and currencies via its balance sheet. Exposure to equity instruments beyond the bank's subsidiaries and strategic investments is limited.

Liquidity risk

Sparebanken Øst takes a conservative approach to liquidity risk and manages its risk according to a fixed framework. At any given time, the bank must have sufficient liquidity to manage normal operations for 12 months without the need for additional financing, and non-liquid assets are financed on a long-term basis. Sparebanken

Øst issues preferential bonds (covered bonds) via the bank's wholly-owned credit institution. In principle, covered bonds with long maturities are issued, while senior bond loans are issued with maturities that match the existing maturity profile at all times.

Operational risk

Operational risk is managed and controlled via annual reviews of the bank's key processes, established internal control, with semi-annual confirmation from managers that internal control has taken place, and quarterly reporting to the Board of Directors of registered incidents and assessments of the risk level. The Group has not registered any significant losses due to the failure of internal processes, systems, human error, or unforeseen events, in Q4 2014.

CAPITAL ADEQUACY

Regulations concerning the calculation of subordinate capital and capital adequacy requirements have been amended in response to the introduction of CRD IV with effect from 30.09.14. Figures as at 31.12.14 are calculated using transitional rules, which means that the fund for unrealised gains for items classified as available for sale still cannot be included in CET1 capital. Net subordinate capital amounted to NOK 3,251.2 million at the end of Q4 2014, of which the Group's Tier 1 capital amounted to NOK 2,843.3 million. With risk-weighted assets of NOK 17,891.6 million, this represents capital adequacy of 18.17 per cent, of which Tier 1 capital adequacy is 15.89 per cent. CET1 capital adequacy amounts to 13.94 per cent. The bank applies the standard method in the Basel II rules to calculate the minimum subordinate capital requirement for credit risk.

RATING

Sparebanken Øst has a Baa1 rating from Moody's, with a negative outlook. As part of Moody's assessment of the new EU crisis management directive, the bank was among 82 European banks for which the outlook was changed to negative on 30 May 2014.

SUBSIDIARIES

Sparebanken Øst Boligkreditt AS is a wholly owned subsidiary of Sparebanken Øst. The company was established on 14 April 2009 with the object of granting or acquiring home mortgage loans, property mortgage loans and

loans secured by liens on other registered assets or public loans, and of financing lending activities, mainly by issuing preferential bonds. At the end of 2014, the loan to value ratio (LTV) of the security portfolio was 46.3 per cent. By way of comparison, the equivalent figure at the end of Q3 2014 was 47.6 per cent; and 47.0 per cent at the end of 2013.

The company's total assets amounted to NOK 8,955.1 million at the end of 2014, consisting mainly of first-priority home mortgages, which are financed via preferential bonds and drawing rights from the parent company. The company's paid-in capital is NOK 650.0 million, of which NOK 319.8 million is share capital and NOK 330.2 million makes up the share premium account. The result after tax is a profit of NOK 87.6 million in 2014, compared to NOK 81.7 million in 2013. The company has no employees, but procures services from Sparebanken Øst. Preferential bonds issued by Sparebanken Øst Boligkreditt AS have been rated AAA by Moody's since Q1 2011.

AS Financiering is a financing company that is wholly owned by Sparebanken Øst. Its main product is financing of second-hand cars. The company achieved a profit after tax of NOK 32.5 million, compared to NOK 32.7 million in 2013. Total assets amount to NOK 1,661.5 million. At the end of 2014, the company had 26 employees, corresponding to 25 FTEs.

Sparebanken Øst Eiendom AS' primary object is standard property operations, including purchases, sales, rentals and development of real estate, as well as the purchase and sale of fixtures and fittings within various business areas. Operating income amounted to NOK 44.0 million in 2014, compared with NOK 58.1 million in 2013. This decrease was primarily due to the profit on the sale of real estate in 2013. The result after tax was a profit of NOK 7.0 million in 2014, compared to a profit of NOK 15.5 million in 2013. The company has 6 employees. The share capital amounts to NOK 35.1 million

Øst Prosjekt AS' primary object is to take over projects and undertake industrial and commercial activities in order to hedge and realise exposed positions in the parent bank. The company has no employees and the share capital amounts to NOK 12.0 million. The result after tax is a loss of NOK 0.1 million in 2014. The company achieved equivalent results in 2013.

ACCOUNTING POLICIES

The interim financial statements have been prepared in accordance with IFRS (including IAS 34 Interim Financial Reporting). Interim financial statements are not audited.

OUTLOOK

On 22 January 2015 the bank signed an agreement on the sale of Engenekvartalet in Drammen. The profit on the sale of the property will be recognised as income in Q1 2015 as a result after tax of around NOK 31 million at Group level.

The lending market was affected by strong competition for business and private customers. This situation is expected to persist in 2015. Net interest and credit commission income will be affected by this market situation in which lending margins will continue to be subject to intense pressure. Reduced lending margins are generally expected to be compensated to a degree by lower deposit margins.

Lower growth in housing loans is expected in 2015. In recent years, the bank has adopted a cautious approach to the business market. It is expected that the bank will stabilise its loan volume towards business customers in the future. Reduced lending to the business market and lower exposure to shares (Nets Holding AS) will entail a reduced overall risk for the bank compared to previously.

There may be fluctuations in the market value of the guarantee to Eksportfinans ASA and securities in general. The market value of interest-bearing securities is generally affected by margin trends for individual securities, as well as the general liquidity situation in the market, and may fluctuate over time.

Declining housing prices and weaker growth in the Norwegian economy may result in increased losses in the banking sector in the future.

The bank is adapting to the new capital adequacy rules and closely monitors the development in the market's capital expectations beyond the regulatory requirements. Calculations show that the bank will comply with the expected capital requirements up to and including 2016. The bank's CET1 capital adequacy objective is 14.0 per cent as from 1 July 2016. This capital level ensures the ability to grow, room for manoeuvre in relation to the regulatory

requirements, competitiveness in the bond markets and the opportunity for a return on equity in line with the adopted objective.

The bank considers a long-term, robust liquidity situation that provides security for long-term operations to be extremely important. The bank's aim regarding liquidity is for non-liquid assets to be financed with long term debt of between 103 per cent and 107 per cent, with the goal of 105 per cent long-term financing over time. The bank assumes that access to liquidity will be satisfactory in the immediate future.

Reduced risk, increasing pressure on margins and an increased equity ratio will affect the rate of return over time. The bank's goal for its return on equity has been set at 10 per cent over time.

DIVIDEND POLICY

Sparebanken Øst's financial goal for its activities is to achieve results that provide a good and stable return on the bank's equity and create value for equity capital certificate owners with competitive returns in the form of dividend and the capital appreciation of equity certificates.

The profit for the year will be distributed to equity certificate holders and primary capital in accordance with their respective shares of the bank's equity. Sparebanken Øst will endeavour to pay 50-75 per cent of the profit allocated to the equity certificate holders as dividend. In a normal year, around 10 per cent will be allocated for donation purposes. On determining the dividend and donations, account will be taken of the development in the bank's results, as well as its market situation.

dividend stability and Tier 1 capital

requirements.

Accounting policies

The quarterly accounts for the Group and the parent company have been prepared in accordance with IFRS (including IAS 34 Interim Financial Reporting). A description of the accounting policies applied to the presentation of the financial statements is presented in the Annual Report for 2013. The accounting policies and calculation methods are generally unchanged from those applied to the presentation of the 2013 financial statements. Interest-bearing balance sheet items include earned/accrued interest. The comparative figures for 2013 have been adjusted.

Amendments to IFRS standards that came into effect as of 1 January 2014 have not had a significant impact on the Group's financial position, profit and/or financial information. Reference is made to the Annual Report for 2013, Note 2: Accounting policies, item 17: future changes to the accounting policies. The financial statements are presented in Norwegian kroner, which is also the Group's functional currency. Interim financial statements are not audited.

Assessments and the use of estimates

In the preparation of the consolidated accounts, the management must make estimates and discretionary assessments and assumptions that may affect the accounting policies applied and thereby also the booked amounts for assets, liabilities, income and expenses. For further details, reference is made the Annual Report for 2013, Note 3: Assessments and the use of estimates.

Operating segments

Segment reporting is based on the bank's internal reporting format, in which the parent bank and mortgage credit company are split into the private market, the business market and finance. There are also other subsidiaries, as well as a non-reportable segment with items that are not distributed across other segments.

^{*)} The amount of NOK 10.3 million is the net positive value adjustment of the guaranteed portfolio as at 31.12.13 after deduction of an annual swa amount. The value of the derivative without taking the swap amount into account was positive at NOK 22.4 million as at 31.12.13.

Financial assets and liabilities

The bank uses the following valuation hierarchy to determine the fair value of financial instruments:

Level 1: Observable trading prices in active markets.

Level 2: Observable trading prices in less active markets or the use of either directly or indirectly observable input.

Level 3: Valuation techniques that are not based on observable market data.

Reference is made to note 23: Financial assets and liabilities in the Annual Report for 2013 for further details regarding the individual items.

Shares and units in level 3

The decrease in level 3 in 2014 comprises the sale of the bank's holding in Nets Holding AS and the sale of shares in Frende Holding AS, both classified as available for sale. The total consideration for the bank's holding in Nets Holding AS was NOK 231.1 million. The realised gain amounts to NOK 134.7 million and is included in "Net value change and gain/loss on financial investments" in the ordinary result, while the value change previously accumulated in comprehensive income has been reclassified. The total consideration for the sale of shares in Frende Holding AS was NOK 25.1 million. The realised gain amounts to NOK 11.7 million is included in "Net value change and gain/loss on financial investments" in the ordinary result, while the corresponding amount is reversed in comprehensive income. At the end of Q4 2014, Frende Holding AS was valued at a total of NOK 200.8 million and Eksportfinans ASA at NOK 208.3 million.

Shares and units

Disposals in level 3 in 2013 of NOK 4 million are related to the repayment of paid-up capital concerning the liquidation of a company. The positive value change of NOK 176.8 million is classified in the "available for sale" category. The amount includes an impairment loss of NOK 1.9 million, recognised in "Net value change and gain/loss on financial investments" in the income statement, while NOK 178.8 million is a positive net value adjustment, recognised in "Changes in fair value of available-for-sale investments" in comprehensive income. The two largest individual items concern value adjustment for Frende Holding AS of NOK 105.2 million to NOK 226.9 million, and for Nets Holding AS of NOK 78.5 million to NOK 174.9 million.

Netting of financial instruments

The Group's access to netting complies with the general rules in Norwegian legislation. Standardised and mainly bilateral ISDA agreements have been entered into with financial institutions that give the parties netting rights in the event of any default. Furthermore, additional agreements regarding the provision of collateral (CSA) have been entered into. No set-off has been made to amounts recognised in the balance sheet in accordance with the netting disclosure requirement. The parent bank has no agreements concerning netting rights in the event of default or CSA agreements concluded.

Group (Figures in NOK million)

| As at 31.12.14, the exposure was as follows: | Gross amount | Set-off | Balance sheet value | Amount subject to net settlement | Amount after possible net settlement |
|----------------------------------------------|--------------|---------|---------------------|----------------------------------|--------------------------------------------|
| Financial derivatives, assets | 251,4 | 0,0 | 251,4 | 0,0 | 251,4 |
| Financial derivatives, liabilities | 0,0 | 0,0 | 0,0 | 0,0 | 0,0 |
| As at 31.12.13, the exposure was as follows: | | | | | |
| Financial derivatives, assets | 68,3 | 0,0 | 68,3 | 0,0 | 68,3 |
| Financial derivatives, liabilities | 0,0 | 0,0 | 0,0 | 0,0 | 0,0 |

Capital adequacy

Regulations for the calculation of subordinate capital and capital adequacy requirements have been amended in response to the introduction of CRD IV with effect from 30.09.14. Comparative figures for prior periods have not been restated. The figures are therefore not directly comparable. Figures as at 31.12.14 are calculated using transitional rules, which means that the fund for unrealised gains on items classified as available-for-sale still cannot be included in CET 1 capital adequacy. The bank uses the standardised approach to calculate the minimum subordinate capital requirement for credit risk and the basic indicator approach for operational risk. The capital charge for credit value adjustment (CVA) is calculated using the standardised approach. Exposure amounts for derivatives are calculated using the market value method.

The Group's capital must at all times meet the minimum capital adequacy requirement, with the addition of a buffer that corresponds to the company's accepted risk

Earnings per equity certificate

Earnings per equity certificate are calculated by dividing the part of the profit after tax which falls to the equity capital certificate owners by a weighted average of the number of outstanding equity certificates during the year. If the annual result is a loss, this is covered by a pro rata transfer from the primary capital fund, the endowment fund and the equalisation fund, respectively. In such a situation, the earnings per equity certificate are calculated on the basis of the proportion of the loss that is charged to the equalisation fund.

Sparebanken Øst has not issued options or other instruments that may lead to the dilution of earnings per equity certificate. Diluted earnings per equity certificate are therefore not equivalent to earnings per equity certificate.
